

USB-C and USB-A Indicator LEDs

Charging power bank - USB-C input indicator blinks until power bank is fully charged

Charging a device - USB-A output indicator illuminates solid until device cable is removed

Battery Indicator LEDs

Charging power bank - White lights blink indicating battery capacity

Power bank fully charged - White lights remain on until USB-C cable is removed

Charging a device - White lights display current power bank battery capacity

Low battery capacity ($\leq 25\%$) indicator - White light blinking

Charging the Power Bank

- Simply plug the power bank into the included USB-A power supply using the USB-C cable
- The LED input indicator will blink indicating the power bank is charging
- When fully charged, all battery LED indicators will be illuminated
- Fully charging your power bank using the included wall charger should take around 3-4 hours using the USB-C port

Please Note: The power bank can charge a device while being charged at the same time. However, when charging a device simultaneously, the power bank will charge more slowly.

Charging Your Device

- This power bank has auto on auto on/off function. Plug in your device to initiate charging. Your power bank will turn off after 10 seconds of removing the charging cable.
- Your power bank is compatible with most phones and tablets, and can be used with your own cable. Simply plug your device cable into the USB-A or USB-C output to begin charging.
- When charging, the white LED's will turn off after 5 seconds. To check the remaining battery capacity, press the charge status button briefly to show the white battery indicator LED's.

Important Safety Instructions

WARNING - When using this product, basic precautions should always be followed, including the following:

- Read all manufacturers instructions before using this product.
- To reduce the risk of injury, close supervision is necessary when the product is used near children.
- Do not put fingers or hands into the product.
- Do not expose power bank to moisture, rain, or snow.
- Use of a power supply or charger not recommended or sold by power bank manufacturer may result in a risk of fire or injury to persons.
- Do not use the power bank in excess of its output rating. Overloaded outputs above rating may result in a risk of fire or injury to persons.
- Do not use a power bank that is damaged or modified. Damaged or modified batteries may exhibit unpredictable behavior resulting in fire, explosion, or risk of injury.
- Do not disassemble the power bank. Take it to a qualified service person when repairs are required. Incorrect reassembly may result in a risk of fire or injury to persons.
- Do not expose the power bank to fire or excessive temperature. Exposure to fire or temperature above 122°F may cause explosion. The power bank's working temperature is $\leq 104^{\circ}\text{F}$.
- Have service performed by a qualified repair person using only identical replacement parts. This will ensure that the safety of the product is maintained.
- Switch off the power bank when not in use.

Portable Charger Kit

10,000mAh Portable Charger for Mobile Phones

Features

Technical Specifications

Model	PWB1071
Cell Type	Lithium Ion Polymer, 10,000mAh
Input	USB-C 5V/2.4A
Output 1	USB-A 5V/2.4A,
Output 2	USB-C 5V/2.4A,
Total Output	4.8A/24W
USB Compatibility	iPhone®, Samsung®, and other USB Devices
Battery Indicators	4 white LED's, each indicating 25% capacity
Dimensions	5.22 x 2.58 x .56 inches
Weight	195g

Warranty

At Ubio Labs, we are dedicated to designing and manufacturing products with superior performance and 100% customer satisfaction. All of our products come with a 1 year limited warranty from date of purchase.

We are always improving our products' features and functionality. We reserve the right to change product specifications at any time without notice.
